G2 · Proof of Fit

Why this tool matters

Celebrating complaints and discomfort not as administrative nuisances, but as the raw, precious material required to tangibly improve urban hospitality.

Evidence we produce

A localized, color-coded diagnostic map that directly links community grievances and negative emotions to specific spatial configurations.

Duration & Material

Duration · 30 minutes of mapping, 45 minutes of action planning

Material · Large printed satellite maps, multi-colored dot stickers, wall space

Reference case

Community Mapping using digital or physical maps allows citizens to place "pop-up bubbles" or stickers directly on areas that need attention, instantly generating a visual heat map of urban pain points for planners. By visually isolating urban pain points, planning teams bypass technical jargon and rapidly define exact locations for tactical interventions.

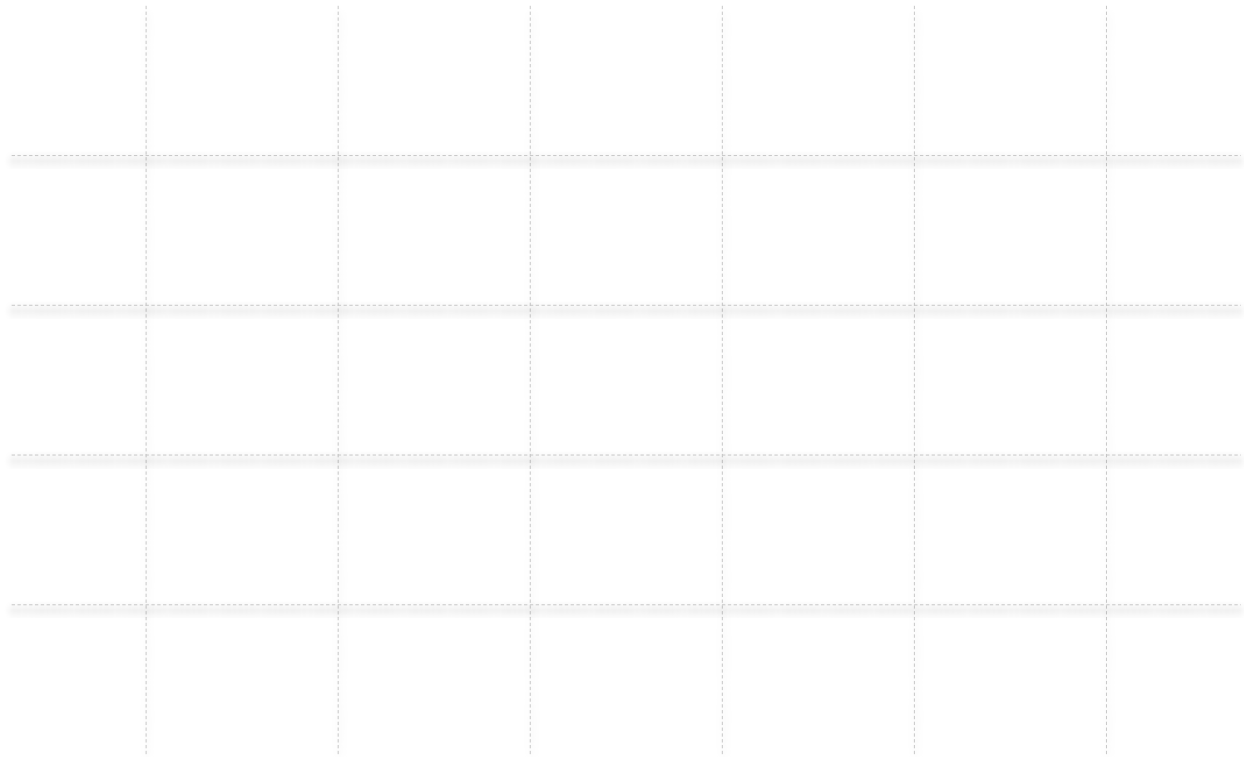

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Color-coded sticker map · pain points to action

Duration
30 minutes of mapping, 45 minutes of action planning

Aerial photo / satellite map

Print large. Place stickers exactly where the friction lives.

Sticker legend

-  **Danger / discomfort**
-  **Urgent repair**
-  **Safe / happy**
-  **Memory anchor**

Each stakeholder explains their sticker out loud · root causes surface in the conversation.

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
