

Impact assessment frameworks

What this tool produces · *A structured, data-driven evaluation report detailing the precise feasibility, social, and spatial impacts of the intervention, forming the basis for policy scale-up.*

G4 · Proof of Sustainability

Dimensions

Economic

Regulation

Environmental

Preparing the workshop · *Impact assessment frameworks*

G4 · Proof of Sustainability

Why this tool matters

Grounding political promises in rigorous reality; replacing comfortable assumptions of success with the hard, undeniable truth of measured impact.

Evidence we produce

A structured, data-driven evaluation report detailing the precise feasibility, social, and spatial impacts of the intervention, forming the basis for policy scale-up .

Duration & Material

Duration · 1 to 3 months of data collection and evaluation post-implementation

Material · Standardized assessment matrices, GIS mapping for spatial impact, post-occupancy surveys

Reference case

The FURNISH project utilized a shared assessment framework structured strictly around three impact dimensions: feasibility (fabrication, replicability), social impact (interaction, user perception), and spatial impact (changes in movement, spatial activation). This allowed for a systematic, comparable evaluation of pilot interventions deployed across different European cities , , .

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Impact dimensions × indicators × scoring

Duration
1 to 3 months of data collection and
evaluation post-im...

Social

inclusion, equity, well-being

Total ____ / 20

Score each indicator 1-5 then sum. Use the radar to compare scenarios.

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
