Preparing the workshop · *Memory and identity programmes*

G3 · Proof of Anchoring

Why this tool matters

Transforming old stones into living storybooks, ensuring that the voices and memories of the past actively shape the concrete of the future.

Evidence we produce

A documented collection of local stories, digital archives, and physical markers that visualize the intangible cultural heritage and collective memory of the site,.

Duration & Material

Duration · 2 to 6 months of active storytelling collection and synthesis

Material · Digital storytelling platforms, printed maps, recording equipment, community workshops

Reference case

In Hermoupolis (Greece), the "100 buildings - 100 stories" initiative used open-source software (HERMeS) combined with participatory workshops. It empowered citizens to digitally preserve their built heritage by writing, telling, or drawing stories about their city. This proved that digital preservation and built heritage management can thrive with little budget when directly driven by community engagement,.

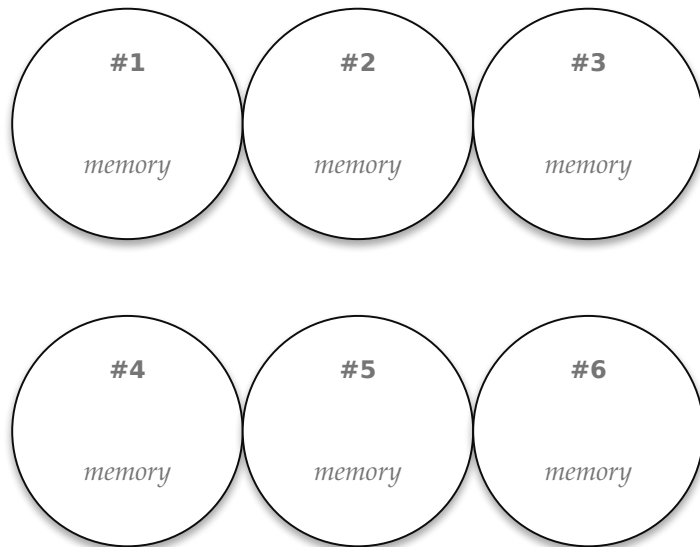

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Memory anchors · narrative arcs · programme actions

Duration
2 to 6 months of active storytelling collection and syn...

Memory anchors

Places, objects, rituals that carry collective memory

Identity layers

-  **Tangible heritage**
-  **Intangible heritage**
-  **Living traditions**
-  **Future stories**

Programme actions

- 1
- 2
- 3
- 4

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
