Why this tool matters

Untangling the bureaucratic labyrinth; showing citizens exactly who holds the pen and who holds the purse, making the faceless machinery of government visible and navigable.

Evidence we produce

A verified institutional organogram that explicitly details the formal responsibilities, resource capacities, and hierarchical relationships of all public agencies acting on a specific territory,.

Duration & Material

Duration · 3 to 5 weeks of desk research and interviews

Material · Legal frameworks, administrative organograms, interview guides

Reference case

During the application of the Incremental and Participatory Toolbox for Urban Planning, teams draft an organogram of the current institutional framework specifically to analyse overlaps in responsibilities between different city departments. This articulated review prevents project delays caused by bureaucratic infighting and establishes a clear, accountable governance model for the neighborhood plan's execution.
