Why this tool matters

Subjecting the quiet calculations of experts to the loud, messy, and necessary judgment of the street; ensuring that the final word belongs to those who will live with the consequences.

Over a period of one month, the project utilized public hearings, stakeholder workshops, and an online participatory platform. Despite 204 written contributions and intense scrutiny, independent guarantors synthesized the feedback into 10 recommendations, legitimizing the project and moving it forward with democratic backing.
