G3 · Proof of Anchoring

Why this tool matters

Translating the collective aspirations of a community into a three-dimensional canvas, orchestrating the physical form where everyday life, movement, and memory will unfold for generations.

Evidence we produce

A detailed spatial document comprising 3D illustrations, zoning layouts, movement hierarchies, and a phased delivery strategy.

Duration & Material

Duration · 6 to 12 months

Material · 3D spatial modeling software, base maps, demographic and environmental data, consultation platforms

Reference case

The Scottish Government emphasizes masterplanning for areas undergoing significant change, such as town extensions or regeneration zones, to avoid uncoordinated, fragmented spaces. In Wyre Council, masterplans are strictly required for multi-owner residential allocations to ensure cohesive integration of schools, roads, and green infrastructure before any planning permission is granted, treating the document as a material consideration of significant weight.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Vision → Strategy → Programme → Action

Duration
6 to 12 months

Vision
20-year aspiration

Strategy
spatial structure

Programme
phased projects

Action
operational works

Cross-cutting principles

Inclusive

Resilient

Compact

Mixed-use

Heritage-led

Carbon-neutral

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
