Preparing the workshop · *ISO 37120 / 37101 / 37123 smart city indicators*

G4 · Proof of Sustainability

Why this tool matters

Translating the chaotic, pulsing life of a city into a universal language of shared metrics, allowing a town in Europe to learn directly from the triumphs and struggles of a metropolis across the globe.

Evidence we produce

A standardized dashboard of city indicators conforming to ISO specifications, enabling direct performance comparison with other global cities.

Duration & Material

Duration · 4 to 6 months for data collection and certification

Material · ISO standard documents, municipal databases, open-data publishing platforms

Reference case

The World Council on City Data (WCCD) utilizes ISO 37120 to certify municipalities worldwide. By 2018, 52 cities had successfully standardized their metrics using this framework, overcoming the challenge of fragmented data. This allowed them to objectively benchmark their performance in areas such as public transport and water quality against international peers, directly supporting their transition into smarter, more sustainable environments.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Smart city ISO indicators · services · smart · resilience

Duration

4 to 6 months for data collection and certification

ISO 37120 · services

transport, water, education, health

ISO 37122 · smart

digital infrastructure & innovation

ISO 37123 · resilience

preparedness & adaptive capacity

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
