Preparing the workshop · *URBACT / INTERREG good practice transfer*

G3 · Proof of Anchoring

Why this tool matters

Acknowledging that no city has all the answers, turning municipal pride into a humble, trans-European dialogue where knowledge flows freely across borders to solve shared human struggles.

Evidence we produce

A localized Transfer Plan detailing exactly how an imported good practice will be adapted, funded, and implemented within the specific municipal context and governance structure.

Duration & Material

Duration · 18 to 24 months for the full network cycle

Material · Good practice databases, peer-to-peer learning frameworks, URBACT Toolbox

Reference case

During the URBACT III program, the Transfer Networks methodology enabled structured peer learning across Europe. This trans-national exchange led to 15 to 20 distinct good practices being significantly improved, adapted, and successfully adopted by 100 network partners, profoundly shifting local action-learning capacities and preventing isolated policy failures,.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Transfer plan · adopt · adapt · pilot · scale

Duration
18 to 24 months for the full network cycle

Adopt

identify a validated good practice

Adapt

reshape to local context

Pilot

test in a bounded scope

Scale

embed in policy

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
