Preparing the workshop · *Adaptive reuse prototype*

G2 · Proof of Fit

Why this tool matters

Breathing new life into abandoned heritage, proving that historic buildings are not dead museums but resilient structures capable of serving contemporary human needs.

Evidence we produce

A functional, temporary activation of a historic space that proves the economic and social viability of a new use while measuring its impact on the building's physical integrity,.

Duration & Material

Duration · 6 months to 1 year of temporary activation

Material · Temporary architectural installations, financial feasibility models, monitoring sensors

Reference case

During the CLIC project's Local Action Plan in Salerno, the municipality focused on the adaptive reuse of the "Edifici Mondo" complex. By engaging over 50 civic organizations, the city tested proposals for transforming the abandoned site into a vital place that reconnected the community to the city-port, evaluating options like a "House of Music" or a solidarity condominium based on circular financial and social indicators,,,.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Existing fabric → new programme · reversible · respectful

Duration
6 months to 1 year of temporary activation

Existing fabric

*What is here today
structure, character, memory*

sketch / photo

Intervention

*What we add, remove, preserve
always reversible*

sketch / photo

New programme

*What it becomes
uses, users, rhythms*

sketch / photo

Conservation principles

Reversibility

Minimal intervention

Distinguishability

Compatibility

Documentation

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
