G1 · Proof of Impact

Why this tool matters

Holding a mirror up to the administration; proving the difference between allowing citizens to speak into a void and actually granting them the power to shape the city.

Evidence we produce

A diagnostic report scoring the depth and effectiveness of existing public consultation tools, identifying whether the current administration practices genuine collaboration or mere tokenism,.

Duration & Material

Duration · 3 to 4 weeks of document review and civic surveying

Material · Arnstein's Ladder framework, historical participation reports, civic trust surveys

Reference case

During the CEJ Convergence assessment in North Macedonia, a baseline study evaluated the effectiveness of current tools for public consultation in environmental matters. The report noted that while legal mandates for Environmental Impact Assessments existed, their practical application revealed significant disparities. Identifying these baseline weaknesses allowed planners to recommend specific improvements for engaging stakeholders in major infrastructure projects,.

For each engagement on the project · place it on the spectrum, then justify.

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure
