Social / User

Preparing the workshop · *Governance sandbox (regulatory prototyping)*

G2 · Proof of Fit

Why this tool matters

Treating the law as a living draft rather than a sacred text; giving the community the legal permission to break outdated rules in order to invent better ones.

Evidence we produce

A tested, temporary governance or financial arrangement (e.g., a collaborative pact or a specialized testing domain) evaluated in practice to observe outcomes and mitigate risks before institutionalization,.

Duration & Material

Duration · 6 months to 2 years of authorized experimentation

Material · Legal exemption decrees, monitoring frameworks, shared governance pacts

Reference case

The CLEVER Cities framework utilizes shared-governance approaches where experimental processes are translated into municipal policies. By deploying Urban Living Labs, cities test new co-creation routines and directly update bureaucratic procedures and urban-planning policies, effectively using the project as a sandbox to make participatory governance easier and permanent,.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Sandbox parameters · scope · time-box · safeguards

Duration
6 months to 2 years of authorized experimentation

Scope

what rules are suspended
which domain

Time-box

start · checkpoints · sunset

Eligibility

who can apply
selection process

Safeguards

consumer / fundamental rights
opt-out

Evidence

*what we measure
failure thresholds*

A sandbox is real-world · with real exit criteria.

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
