Preparing the workshop · *Monitoring & Evaluation framework (M&E)*

G4 · Proof of Sustainability

Why this tool matters

Moving beyond administrative box-ticking to create a culture of honest reflection, where failures are treated as learning opportunities to better serve the community.

Evidence we produce

A logic model or results framework tracking inputs, activities, outputs, outcomes, and long-term impacts against baseline data.

Duration & Material

Duration · 1 to 2 months for framework design; continuous execution

Material · Logic model templates, baseline data surveys, indicator tracking dashboards

Reference case

The URBACT III program heavily utilized M&E results frameworks to assess its impact on sustainable urban policy across over 400 cities. By continually tracking capacity building, participation, and integration metrics against baseline studies, the evaluation allowed policymakers to visibly demonstrate how local action plans directly improved democratic processes and city governance.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Indicator pyramid · output → outcome → impact

Duration
1 to 2 months for framework design;
continuous execution

Outputs

what was delivered
trainings, m² rehabbed

Outcomes

what changed for users
employment, satisfaction

Impact

long-term societal change
wellbeing, prosperity

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
