

Economic network map

What this tool produces · *A segmented territorial map visualizing industries, local businesses, anchor institutions, and the networking spaces that connect them.*

G1 · Proof of Impact

G3 · Proof of Anchoring

Dimensions

Economic

Spatial

Preparing the workshop · *Economic network map*

G1 · Proof of Impact

Why this tool matters

Revealing the hidden web of human relationships, shared spaces, and tacit knowledge that truly powers a local economy, far beyond mere corporate balance sheets.

Evidence we produce

A segmented territorial map visualizing industries, local businesses, anchor institutions, and the networking spaces that connect them.

Duration & Material

Duration · 4 to 6 weeks

Material · Geographic Information Systems (GIS), local business registries, spatial data

Reference case

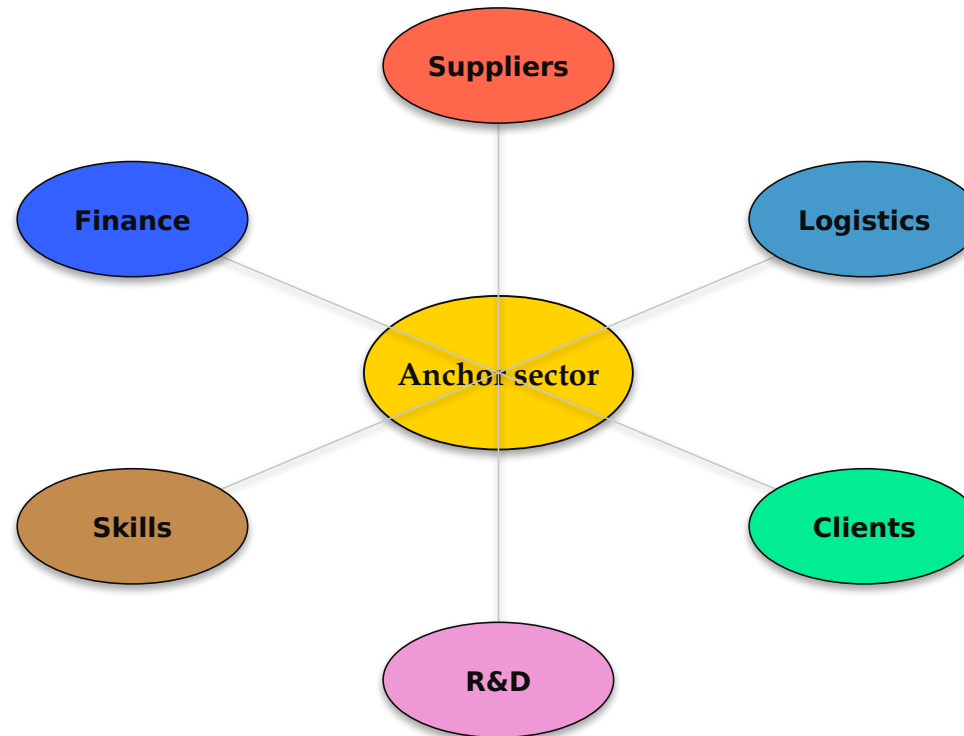

The World Bank notes that mapping "networking assets" and economic drivers is essential in assessing urban tech environments. By plotting incubators, universities, and commercial spaces on a territorial map, planners can identify missing linkages and physical barriers, ensuring that investments target community-building hubs rather than disconnected geographic parks.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Sectors × suppliers × clients × spillovers

Duration
4 to 6 weeks

Cluster diagram

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
