Social / User

Preparing the workshop · *Employment & activity metrics*

G1 · Proof of Impact

Why this tool matters

Giving statistical dignity to the invisible labor of marginalized populations, ensuring that informal workers and struggling youth are counted in the city's economic narrative.

Evidence we produce

A localized statistical dashboard tracking broad unemployment, time-related underemployment, informal sector participation, and labor productivity.

Duration & Material

Duration · 4 to 8 weeks for data collection and analysis

Material · Labor force surveys, regional accounts statistics, statistical analysis software

Reference case

The 1-2-3 surveys deployed across Sub-Saharan African capitals (e.g., Bamako, Dakar, Niamey) proved that standard unemployment metrics missed the reality of the labor market. By measuring "invisible underemployment" and analyzing the specific returns on education within the informal sector, these metrics revealed severe job mismatches and vulnerabilities affecting urban youth and women.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

Employment dashboard · 6 indicators

Duration
4 to 8 weeks for data collection and analysis

Activity rate

% of working-age population

Unemployment rate

youth · long-term

Job creation

net new positions

Sector mix

manufacturing · services · tertiary

Wage levels

median · gender gap

Commuting

in / out / within

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
