

# Urban Heat Island (UHI) mapping

**What this tool produces** · *High-resolution spatial heat maps overlapping land surface temperatures with social vulnerability indicators and urban morphology data.*

**G1 · Proof of Impact**

**G2 · Proof of Fit**

**Dimensions**

**Environmental**

**Spatial**

**Social / User**

# Preparing the workshop · *Urban Heat Island (UHI) mapping*

## G1 · Proof of Impact

### Why this tool matters

Making the suffocating reality of climate injustice visible, transforming invisible temperature spikes into a stark geographic mandate to bring shade, water, and relief to those who need it most.

### Evidence we produce

High-resolution spatial heat maps overlapping land surface temperatures with social vulnerability indicators and urban morphology data.

### Duration & Material

Duration · 4 to 8 weeks

Material · GIS software, satellite thermal imagery, local demographic census data

### Reference case

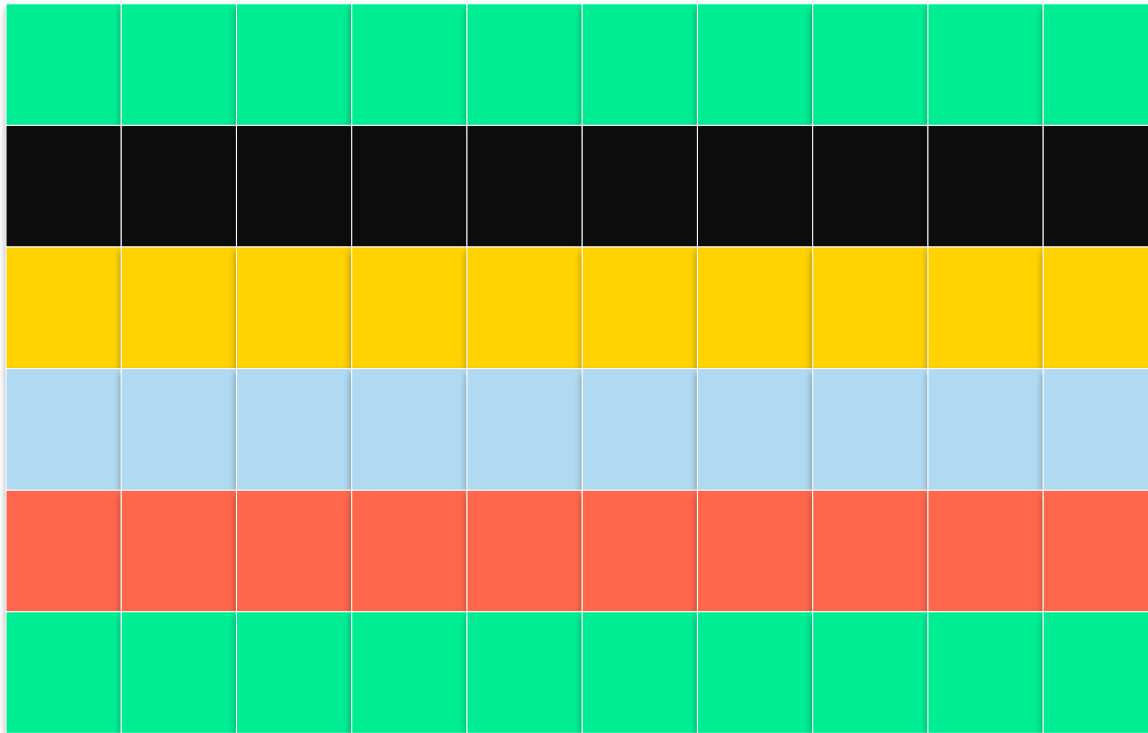

In Croatian cities like Zagreb and Dubrovnik, urban planners combined satellite surface temperature measurements with the Green Infrastructure Registry. By categorizing precise land uses (e.g., industrial units, dense urban fabric) by their contribution to the heat island effect, planners successfully pinpointed anthropogenic hotspots, proving that spatially targeted greening drastically improves thermal comfort.

**Suggested agenda** · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

# Urban heat island map · hot zones × adaptation

Duration  
4 to 8 weeks

*Surface temperature heatmap*

*Adaptation toolkit*

-  **Tree canopy**
-  **Cool roofs**
-  **Permeable pavers**
-  **Shade structures**
-  **Water features**
-  **Light surfaces**

# Harvesting our *learnings*

*After running the canvas, capture three layers of insight.*

**What inspires me**

*Stand-out signals, surprising stories, ideas to remember*

---

---

---

---

---

---

---

---

**How to apply it here**

*Concrete adaptations to our context, our team, our constraints*

---

---

---

---

---

---

---

---

**What we need to be autonomous**

*Skills, allies, resources, decisions still to secure*

---

---

---

---

---

---

---

---

*Each participant fills a copy. Then debrief together to surface patterns and next steps.*
