Preparing the workshop · *New Urban Agenda / SDG11 local indicators*

G1 · Proof of Impact

Why this tool matters

Anchoring everyday street-level decisions like paving a sidewalk or expanding a bus route to a profound global promise of planetary survival and human dignity.

Evidence we produce

A localized monitoring framework integrating core SDG 11 metrics to track the inclusiveness, safety, and resilience of the urban settlement.

Duration & Material

Duration · 3 to 6 months for framework design and initial data collection

Material · Global Urban Monitoring Framework guidelines, spatial data (GIS), demographic census data

Reference case

UN-Habitat's City Prosperity Initiative (CPI) integrates all 10 targets of SDG 11 into a spatial analysis tool. Nearly 300 cities utilized this framework to calculate specific localized ratios, such as land consumption compared to population growth (Indicator 11.3.1), providing an empirical, standardized baseline to steer inclusive and sustainable urbanization.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

SDG 11 targets · localized indicators

Duration
3 to 6 months for framework design and
initial data col...

11.1 Housing

access to safe, affordable

11.2 Mobility

safe transport for all

11.3 Inclusive urbanization

participatory & sustainable

11.4 Heritage

protect cultural & natural

11.5 Disaster resilience

reduce impact of disasters

11.6 Environmental impact

reduce per capita

11.7 Public spaces

safe, inclusive, accessible

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
