## G3 · Proof of Anchoring

### Why this tool matters

Treating the city itself as a living, breathing laboratory where the future of human dwelling is not just debated in meeting rooms, but physically rehearsed and built in real-time.

### Evidence we produce

A 10-year strategic memorandum, a novel governance structure, and a final portfolio of fully constructed, future-oriented urban districts presented to an international audience.

### Duration & Material

Duration · 6 to 10 years

Material · IBA Memorandum, project qualification matrices, international advisory boards, public exhibition infrastructure

### Reference case

The IBA Emscher Park in North Rhine-Westphalia successfully transformed a scarred, 70-kilometer industrial coal mining landscape into a vibrant cultural and economic hub through nature-based solutions and architectural renewal. More recently, the IBA Wien focused strictly on "New Social Housing," exploring forward-looking living concepts, affordable mobility, and social inclusion to shape new, highly livable neighborhoods like the Sonnwendviertel.

**Suggested agenda** · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)
