Why this tool matters

Shielding the most vulnerable from the heavy machinery of global development, establishing an absolute legal boundary ensuring that new infrastructure never comes at the cost of human dignity or ecological integrity.

Evidence we produce

An Environmental and Social Commitment Plan (ESCP) detailing binding risk mitigation measures, supported by specific action plans (e.g., Resettlement Plan, Biodiversity Action Plan).

Duration & Material

Duration · 6 to 12 months prior to financial close

Material · ESF Guidance Notes, Stakeholder Engagement templates, Environmental Impact Assessment reports

Reference case

Multilateral development banks strictly apply these standards to urban operations. For instance, under ESS8, projects must evaluate their impact on both tangible and intangible cultural heritage, explicitly preventing the commercial exploitation of heritage without consent. Furthermore, financial intermediaries (ESS9) are now strictly required to monitor the environmental and social risks of all their sub-projects to ensure comprehensive accountability.

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

ESS standards · screen · assess · mitigate · monitor

Duration
6 to 12 months prior to financial close

ESS1 · Assessment screening & risk categorization	ESS2 · Labour & working workers protection	ESS5 · Resettlement avoid · minimize · compensate	ESS6 · Biodiversity critical habitats protected
ESS7 · Indigenous Peoples FPIC · participation	ESS8 · Cultural heritage tangible & intangible	ESS10 · Stakeholder engagement meaningful consultation	avoid → minimize → compensate

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
