G2 · Proof of Fit

Why this tool matters

Placing human biology and psychology at the exact center of architecture, demanding that the spaces where we live and work actively nourish our lungs, calm our minds, and encourage us to move.

Evidence we produce

A third-party verified health and wellness certification (Silver, Gold, or Platinum) based on compliance with over 100 specific performance features.

Duration & Material

Duration · 6 to 18 months spanning design and post-occupancy

Material · WELL Standard guidelines, indoor environmental quality (IEQ) testing equipment, post-occupancy survey tools

Reference case

The WELL Building Standard and the WELL Community Standard are increasingly used by developers to demonstrate health leadership. By modeling the framework closely on environmental rating systems but focusing exclusively on human impacts, projects successfully mandate physical activity spaces, urban heat adaptation, and community sound mapping. Research shows that integrating these rigorous standards enhances asset value and significantly improves occupant health compared to...

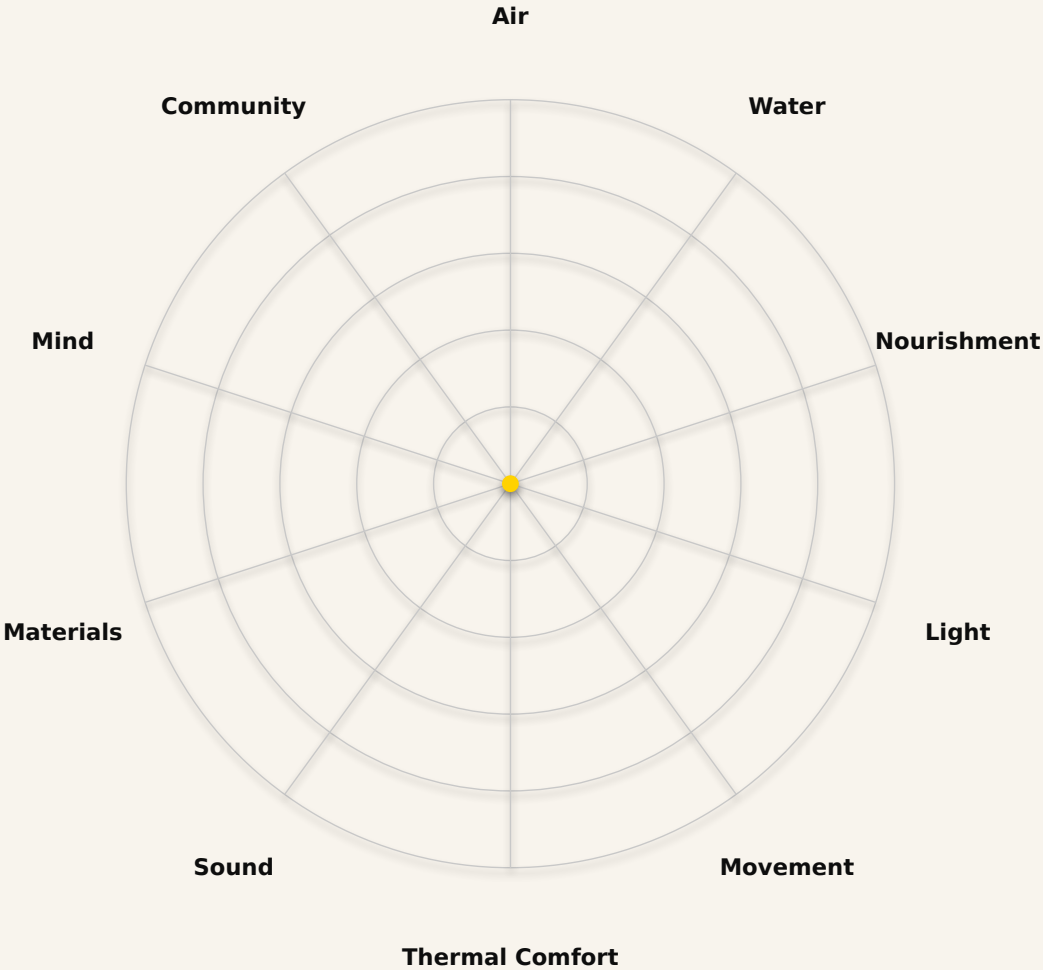

Suggested agenda · Brief (10 min) > Method walk-through (15 min) > Animation canvas (60-90 min) > Harvest (20 min)

WELL · 10 health concepts · scored radar

Duration
6 to 18 months spanning design and post-occupancy

Harvesting our *learnings*

After running the canvas, capture three layers of insight.

What inspires me

Stand-out signals, surprising stories, ideas to remember

How to apply it here

Concrete adaptations to our context, our team, our constraints

What we need to be autonomous

Skills, allies, resources, decisions still to secure

Each participant fills a copy. Then debrief together to surface patterns and next steps.
